Summary

Motivated and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and modern frameworks like React.js. Passionate about building responsive and user-friendly web interfaces that deliver an exceptional user experience. Eager to apply coding skills and creative problem-solving to real-world projects in a collaborative team environment, while continuously learning and evolving in the field of web development.

Project

eCommerce - Web Application

Developed a responsive e-commerce website using **Vite** and **React** with **Tailwind CSS** for a modern user interface. Designed interactive product listing, filtering, and sorting functionalities for easy browsing. Built reusable UI components and implemented a seamless shopping experience with an intuitive design. Ensured mobile responsiveness and cross-browser compatibility. Focused on delivering a fast, efficient, and visually appealing front-end application, applying best practices for code optimization and user experience.

Image Gallery - Web Site

Developed a dynamic image gallery using **HTML**, **CSS**, and **JavaScript**, offering an interactive and user-friendly experience. Implemented key features including image download, zoom in, zoom out, and rotation for enhanced functionality. Designed a responsive layout with smooth animations and intuitive controls. Ensured cross-browser compatibility and optimized performance for seamless navigation. Focused on clean code practices and efficient styling to create a visually appealing and accessible application. The project showcases strong front-end development skills and attention to user experience.

Real State - Web Site

Developed a responsive real estate website using **React.js** and **Tailwind CSS**, ensuring an engaging user experience. Integrated **Framer Motion** for smooth animations and interactive elements. Implemented property search, filtering, and sorting functionalities for easy navigation. Built reusable and responsive UI components with cross-browser compatibility. Focused on clean design, intuitive user interface, and optimized performance to deliver a seamless browsing experience across devices.
